

## SCOSCHE® Industries Debuts Nine Extendo Telescoping Phone Mounts For Vehicle and Home Use, At 2020 International CES

Las Vegas, Nev. – (January 8, 2020) SCOSCHE® – (pronounced skōsh/skohsh) Industries, innovators of award-winning consumer technology and accessories is pleased to announce a brand new range of telescoping phone mounts for home, office and vehicle use.

Every vehicle and every driver is different and Extendo adjusts to perfectly suit each one. In your vehicle you can mount it to your windshield or dashboard and then extend and angle it until you find your perfect viewing angle, and then use the lock-nuts to secure it in place. You might decide to mount it in the middle of the dashboard where it can be extended to suit either the driver or the passenger.

*Photo shows: MagicGrip® Extendo Wireless Charging Mount (MGQWDEX2-XTET)*

The Extendo telescoping arm adjusts from just over 5" to just over 8.5" (depending on model), with 220° of angle adjustment. The mounting head on all models rotates on a 360-degree axis, so you can view your phone in portrait, landscape or any angle in between.

For home use you can attach your Extendo to the countertop or backsplash and adjust it so that you can view a recipe, or facetime with a friend, while you're cooking dinner. In the office you can attach the base to your desktop, away from your keyboard and monitor and then simply extend it when you need to use your phone. It's there when you need it but will wait unobtrusively when you don't.

Like all Scosche wireless chargers, the Extendo Charge mounts are Qi-certified by the Wireless Power Consortium (WPC), so you can be confident your phone is getting the safest and fastest wireless charge it can handle.

Visit the Scosche booth #30306 in South Hall for a demonstration of the Extendo family of mounts that includes: MagicMount magnetic mounts, dual-magnet, universal, Qi wireless charging, and even advanced wireless charging mounts like the MagicGrip and Charge3.

Extendo mounts will become available Spring through Summer 2020, and will range in price from \$24.99 for Universal and MagicMounts, to \$69.99 for advanced wireless charging models.
