

Scosche® Industries Introduces The M8RIX™ Relay Switch System In Four Vehicle Builds At 2021 SEMA Show

Las Vegas, Nev. – November 3, 2021 SCOSCHE – (pronounced skōsh/skohsh) Industries, a leading innovator of award-winning consumer technology, powersports and car audio products and accessories and the #1 Mount Brand* is pleased to reveal their new Relay Switch System installed in four vehicle builds at SEMA.

The M8RIX relay switch system with its touchscreen control panel provides a sophisticated, yet simple solution for controlling all installed accessories in a vehicle, boat or tractor. Delivering up to 120 amps from its IPX7-rated waterproof solid-state power module to (up to) eight different accessories. M8RIX makes wiring those accessories clean and simple, and even allows for daisy-chaining of up to three units to control up to 24 channels.

The compact control interface is a customizable (with 7 different on screen button colors) and splashproof touchscreen that mounts easily to a dash, completely eliminating the need for multiple switches. The touchscreen includes multiple mounting options: AMPS pattern, ¼ – 20”, or use any of our #1 Mount Brand MagicMounts. Each channel can be programmed for latched (on/off), momentary, strobe and timed (on/off) output, and status indicators will alert you of any faulty channels.

M8RIX will be available early Spring 2022 on Scosche.com and at select dealers at an MSRP of \$749.99.

Check out the M8RIX Relay Switch System in person at SEMA in these four vehicle builds:

- 2019 Toyota Tacoma built by Rockstar Performance Garage, in the Mickey Thompson booth #84180 (Outdoor)
- 2021 Ford Bronco built by Rockstar Performance Garage, in the Rockstar Garage booth #20655 (Central Hall)
- 2021 Ford Bronco built by Camburg, in the Magnaflow booth (Outside next to Ford)
- C10 Slayer built by DeBerti, in the HP Tuners booth #23365 (Central Hall)
