

Scosche® Industries Debuts Power Delivery Chargers and Power Banks for in-Vehicle, Home, Office and Travel

Oxnard, Calif. – January 5, 2022 SCOSCHE – (pronounced skōsh/skohsh) Industries, a leading innovator of award-winning consumer technology, powersports and car audio products and accessories and the #1 Mount Brand* is pleased to introduce their line-up of new Power Delivery Chargers and Power Banks. These items are just a sampling of Scosche's growing portable power family of products.

The **PowerVolt PD30 Mini Home Charger** is a tiny but powerful home/office charger that harnesses the power of USB-C Power Delivery. This diminutive cube charges most phones up to 4X faster than a standard charger and will also charge tablets, cameras, and even small laptops. It fits easily into any power outlet or power strip and comes in a choice of black or white to suit any decor. It features Programmable Power Supply (PPS), the latest Power Delivery specification from the USB Implementers Forum, that delivers a faster and cooler charge cycle, which is safer for device batteries.

The PowerVolt PD 30 Mini Home Charger (Patent Pending) will be available late Winter/Spring, 2022 on Scosche.com and at select retailers at an MSRP of \$29.99.

The **4-Port Power Delivery Hub** is perfect for charging multiple devices, and at different power levels. With a total charging power of 72W divided between four charging ports, this hub adapts to the needs of each device. The 60W USB-C Power Delivery charging section consists of three USB C ports. The 60W is shared between the three ports: with one device plugged in, it accesses up to 60W. Connect devices to two ports and each will have 30W available. With three devices connected, each will have 20W available.

In addition to the 60W Power Delivery charging section, the hub provides a 12W USB-A charging port to charge a phone or small device. Available in a choice of black or white, to suit any environment, the Hub features a StickGrip base to hold it in place on a desk, kitchen counter, workshop bench, or in the many places it will be useful.

The 4-Port Power Delivery Hub will be available Spring 2022 on Scosche.com and at select retailers at an MSRP of \$79.99.

This compact **PowerVolt 30W Power Delivery AC-DC Travel Charger** is the award-winning ultimate travel accessory and packs a punch of power. It plugs into a vehicle's 12V DC outlet, or into a 110 AC wall outlet and delivers a massive 30W of USB-C Power Delivery to quickly charge a phone, tablet, laptop, camera, portable gaming system and more.

Measuring just 68 x 68 x 23 mm, with folding prongs and a fold-out car adapter, it slips easily into a pocket or purse. The fold-out car charger plugs into a vehicle's 12V outlet to charge devices on the road. It can then be unplugged from the car and the fold-out prongs plug into a regular AC outlet at a home, office, AirBnB, RV or hotel. A true "Travel Charger" the PowerVolt 30PD works from 100-240V so it can be used worldwide.

The PowerVolt 30W Travel Charger (Patent Pending) will be available Spring, 2022 on Scosche.com and at select retailers at an MSRP of \$44.99.

The GoBat 10K - Portable Power Bank has a 10,000 mAh Lithium-Polymer battery to keep multiple portable devices powered up on the go. It features two charging ports: a 20W USB-C and a 12W USB-A and comes with an 11.8" USB-C to USB-C charging cable. The power bank can be quickly recharged using the USB-C input/output and a sequenced LED battery indicator light reliably shows how much power is left. GoBat 10K is perfect for travel or to keep at home in case of power outages.

The GoBat 10K will be available Spring 2022 on Scosche.com and at select retailers at an MSRP of \$54.99.
