DEVICE SETUP

Starting with the power cord end cap (A), connect the (2) charging modules together in either order, with the other end cap at the end of the assembly (B). Plug the power cord into a wall socket (C).

Place tablets, phones, small laptops, or other devices in the padded bars on the 3-port charging station. Connect using an appropriate USB cable (D).

Note: 60W power shared between all ports. Output depends on number of ports used (see insets).

Place iPhone on MagSafe magnetic charging stand and adjust to desired viewing angle (E). **Note:** Both phone and case must be MagSafe compatible.

Place AirPods on recessed area below MagSafe head (F). **Note:** AirPods case must be compatible with wireless charging.

BASELYNX POINT SYSTEM

If you decide to expand your charging station with more Baselynx 2.0 modules just follow the simple point system to safely build your ultimate charging station.

Each Baselynx module has a predetermined point value as shown in the chart below. To ensure safe and dependable operation do not exceed 15 points.

(Note: The Baselynx 2.0 Kit is 7 points)

NOTES

- If the device's battery is fully discharged it may take a few minutes for it to show that it is charging.
- Devices and Baselynx 2.0 modules may get warm during charging. This is completely normal, and they will gradually cool down after they are fully charged.
- Charging time may vary based on the device's battery capacity, charge level, the condition of the battery and the temperature in the surrounding area.
 - To clean your Baselynx, disconnect it from power and wipe with a slightly damp cloth.

WARNINGS

- For indoor use in dry locations only.
- Children should be supervised when using this product.
- Do not operate if any part of product appears to be damaged.
- Do not attempt to service. Opening housings will expose you to dangerous voltage and risk of electrical shock.
